**(phone)**

**DNR: (name)**

**(phone)**

**USFWS: (name)**

**(phone)**

In the boxes on page 2 of this form, briefly provide detailed information about your proposed land acquisition project. The following details, from information you supply, may be posted to a state website for public information: project name, county, watershed, primary species to benefit, habitat type, acreage, partners, sponsoring agency, sponsoring organization. Do not submit more text than this 2-page form.

You must also submit 2 maps. One map should show general project location in relation to nearby federal and state lands, and any match property location. A second map should provide parcel-specific location(s) for land proposed for acquisition and for match, and should relate to the general project location map.

**Washington State Intent Form for  
Cooperative Endangered Species Conservation Fund  
Land Acquisition Proposals**

**Project Description:** describe project objectives; what the land acquisition would entail; and the project's expected benefits to fish, wildlife, and the public. Identify what would constitute non-federal match.

**Project Partners:** identify who is involved with the proposed project, and their respective roles.

**Support:** describe what local, individual, regional, community, or group support exists for this project; any known controversy or opposition to this project; and any outreach that has been conducted for this project.
